"Never Gonna Tell No Lie To You"

Stop - before you walk away
Stop - hear me when I say
I - didn't mean to hurt you last night

I know I left you alone.

Oh you - have the right to run
Please - wait until I'm done.
I - have so many things I must say
So give me a chance to persuade you to stay.

Never gonna tell no lie to you

Never gonna tell no lie to you.
Told you I need you

Told you I want you

You must believe what I say.

Stop - don't you start to cry
Stop - let me dry your eyes
I - know I sometimes act pretty strange

I never wanted to hurt you this way.

Never gonna tell no lie to you
...

Never gonna tell
Never gonna tell
Never gonna tell
No lie to you.
