You left us  
While I'm struggling with all our insecurities  
and when the lights go out do you think of me  
ten days will pass and then I'll start to breath again  
because without you there's no me  
and evenknow you never went, part of me left

C'mon c'mon, phone isn't ringing  
C'mon c'mon, clock isn't ticking  
and when I say that I want you, know that I'm thinking  
and futures to follow, your smile I'm screaming now  
I never really knew, but now I do  
It's midnight, it's midnight, it's midnight, it's 12:01

I hate the months that start without you  
and please believe me if only once, I could tell you  
your voice helps, it helps me get through the day  
and what I needed to feel, I finally figured out  
Now after sunrise it's your favorite day, (Thursday)  
just do it one more time, please for me...ring, ring, ring

C'mon c'mon, phone isn't ringing  
C'mon c'mon, clock isn't ticking  
and when I say that I want you, know that I'm thinking  
and futures to follow, your smile I'm screaming now  
I never really knew, but now I do  
It's midnight, it's midnight, it's midnight, it's 12:01  
What if you only knew and someday were put together  
for us  
then maybe you would realize what I'm talking about  
and see that the truth between us can make a stone  
bleed  
but if it got on you no matter what it would be my fault  
(my fault)  
I'm sorry, I'm sorry, Forgive me, I'm sorry  
Just feel me, looking through you (6x)
