it's alright

i won't commit my friend

and if you pay for your mistakes

you can break apology

it's just fine

i won't commit my friend

when you come back from your escape

you can make a person's day

cos it's your time

you come back and you don't tell the truth to me no  
more

it's alright

i won't commit my friend

when you come back from your escape

i don't need apology

yeah it's just fine

i won't convince my friend

and you don't know just what to say

once you make your plan

you follow it just right

i know you never meant to let nobody down

you never feel the way i found  
come and see  
oh, i won't commit my friend  
you won't pay for your mistakes  
and i don't make apologies  
yeah it's alright  
i won't convince my friend  
when you don't know just what to say  
i don't think i'll ever come to hear it all  
you wanna feel so bad for doing nothing at all this time  
you're doing nothing  
(you just feel left out)  
you're always up to no one's business  
always up to...  
only witness  
when you come back from your escape  
then i could follow you to hell
