And when you said I could not stay with you
That's not the way you would have wanted to be
Convince yourself that everything is alright
'Cos it already is

Don't sell your heart and break just anyone
I want to run with you through moorland fields
Convince yourself that everything is alright
'Cos it already is
'Cos it already is

So take your lessons hard and stay with him
When your car crash comes, don't be misled
Convince yourself that everything is alright
'Cos it already is
'Cos it already is

So take your lessons hard and stay with him
And when your car crash comes, don't be misled
Convince yourself that everything is alright
'Cos it already is
Yeah it already is

So take him home
So take him home
So take him home

Take him, Take him home
Take him, Take him home
