"pass me by"

Visit "[pass me by](#)" on MotoLyrics.com

the words you never cared to say
I want to find a better place
when we rely on something more than this
and even as i try to sleep
still looking for my best friends
i'm tired of all the people i'm seeing through
same idea
it makes me wonder why i'm here
and even when i try to sleep
still looking for my friend
when we rely on something more than this
the words you never cared to say
"i want to start a family"
I'm tired of all the people i'm seeing through
same idea
it makes me wonder why i'm here
watch me now
try
couldn't walk down that line
just pass me by
just passing by
