

Temper "Energy"

Becoming one with your demise
I had to run away
I'm not the one to compromise
My own security
Security

Too far gone, lost your way
You have wasted my time and energy
I have no sympathy
You have wasted my time and energy

This is your end of innocence
Cannot pretend
Back up the choice you've made
The choice you've made

Too far gone, lost your way
You have wasted my time and energy
I have no sympathy
You have wasted my time and energy
Time and energy

(Go) Failed beliefs
(My) My biggest mistake
(At) At least I tried
(Now) Slipping away
(You're) You're lying to me
(To) To save your pride
Pride

Too far gone, lost your way
You have wasted my time and energy
I have no sympathy
You have wasted my time and energy
Time and energy
