What is in front of you
Yet you still turn away
I call out your name
Everytime you lie
Your fading faster
We want to help you
But you must ask us first

So, please believe, forget everything
That I've, heard before
Cause it's not me(it's not me), I'm not like this
If only, you could see

Falling farther inside
And you've forgotten now
Everything you were before
And do you really even try
To stop yourself from
The death of you
You are wasting away, So

Please believe(please believe), forget everything
That I've, heard before
Cause it's not me(it's not me), I'm not like this
If only, you could see
Look inside the mirror friend and tell me what you find
If you don't see the ugliness than you are blind
Cause you've fallen too far, you won't wake up!
Shaking, unmoving I hate you for this
Leavin behind, all of us
Selfish, and fucked up you've ruined everything
You have only one chance, So

Please believe(please believe), forget everything
That I've, heard before
Cause it's not me(it's not me), I'm not like that
If only, you could see

All we done(All we done), it's for you
Although, you are gone
Cause you wasted(you wasted), so much
Of everthing

For you, we cry tonight
