Red is calling in the dead of night I can hardly wait
Head is spinning I just don't feel right Something that I
ate Saw you falling fell from so high Go easy if you
please Heard me calling but I don't know why Then
crawling on my knees We've all the things we ever
wanted (But I still want more) Got all the things I ever
needed (Screaming at my door) It's just me again Only
me again It's just me again Only me again See me
running I can run so far Don't touch me cos I bleed Saw
you falling like some fallen star Like fodder for the
feed We've all the things we ever wanted (But I still
want more) Got all the things I ever needed (Screaming
at my door) It's just me again Only me again So blown
So real hold me And dream Don't go Just leave Come to
Believe We've all the things we ever wanted (But I still
want more) Got all the things I ever needed (Screaming
at my door) It's just me again Only me again It's just
me again Only me again
