He is down on bended knee And that's all very well Like  
to live with you someday I think that would be swell I  
love the way you kicked my face in Then left me for  
dead Like to be the only person Pissing in my head And  
she brings me sunshine She brings me sunshine Thank  
you kindly leave now Would you kindly go away Take  
your worn out Y-fronts And those ones that have gone  
grey I don't care much for parasitic life-forms anyway  
Go now please and Close the door behind you On the  
way Seems so very clearly now The mess was in my  
head She likes the things that I like And to laze around  
in bed Suddenly it seems to me I made my face go red  
She brings me sunshine
