I know you when I'm sleeping  
I know things deep inside of me

The excitement that I swallow  
I swallow things that I can't see

I know you're right behind me  
But I'm too dumb to turn around

I wake with my left arm numb  
Am I the stupidest boy in town  
(the stupidest boy in town)

Can you see my mouth open wide  
Lopsided and confused

The dead weight of my left arm  
And already sold that you will refuse

Substance dream mechanical failure  
My little lost boy trying to sound

I wake with my left arm numb  
Am I the stupidest boy in town

Pain is good if I had understood  
Stuck with weight that's hard to hide  
Numbness disappears when you are near  
Nicky, take me for a ride

Your daddy is smiling at me  
White horses flowing through his veins  
Impossible eyes, forgotten future  
And enough angst-ridden guilt to go insane

A walk together, a walk that hurt  
A road I didn't know and soon forgot

I wake with my left arm numb  
He's not with you, will you be with me

Pain is good if I had understood

Stuck with weight that's hard to hide  
Numbness disappears when you are near  
Nicky, take me for a ride

Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me  
Nicky you touched me
