It started again
You've got a ??? around him??
Gonna smoke yourselves thin
We'll stay here till closing time
And work on our bloodshot eyes

We'll stay here till closing time
Work on our bloodshot eyes
Another night wasting

Sit down and talk through
All the things we should do
All the plans fallen through
Another Night Wasting

It's happened again
You've got sick in your hair
Got your skirt round your ears
You fall over every night
Tears in your bloodshot eyes
Another night wasting

And I know you've ??
But we still always find
I know I just won't survive
Another Night Wasting
Another night wasting
Another night wasting
Another night wasting
