Can't stop my eyes being wide
Can't stop my mouth from breaking into a smile
A belt like a tie with a boot on my neck
watch my shoes sail into the sky and over the roof,
over the flat pack pre-fab to the factory next to the
school
??? a note on the fridge
cos you didn't know what else to do

Flat on my back and I'm done
Flat on my back and I'm done
Flat on my back and I'm done

Can't stop my mind running round
Can't stop my ??? relentlessly flashing about
Encased in the sounds, when the boiler kicks in
??? the ground
The light's getting through, the curtains are closed
but the day's creeping into the room,
I've so much to do, alarm getting closer,
I've gotta get myself to sleep soon

Flat on my back and I'm done
Flat on my back and I'm done
Flat on my back and I'm done
Flat on my back and I'm done
