i dont know why i never ever try
i told you i loved u a million times
but weve reached the end
and i cant comprehend
just being friends

i never thought
we'd be apart
im so fucking angry
your the bitch that broke my heart
but i still love you (chorus)
in every single way
i can only hope that youll come back to me one day

(solo)

I wanted to see you everyday
but sometimes pot got in the way
i should have thoguht of your best interests
but instead i got myself in this mess

i never thought
we'd be apart
im so fucking angry
your the bitch that broke my heart
but i still love you (chorus)
in every single way
i can only hope that youll come back to me one day

(solo)

I remember we watched our favourite movie
and made out to the end
you probably thought it was shit
but now im all alone
just me in my head
i only wish you'd under stand

i never thought
we'd be apart
im so fucking angry

your the bitch that broke my heart
but i still love you (chorus)
in every single way
i can only hope taht youll come back to me one day

i never thought
we'd be apart
im so fucking angry
your the bitch that broke my heart
but i still love you (chorus)
in every single way
i can only hope taht youll come back to me one day
