Even though I'm scared, and I'm not prepared
I need to know a way
To be oh so sure that I can adore your heart, your soul,
your love...

Cause baby I care, and I hope you feel the same...
Don't let me down, I'm telling you that your my baby
the world's gone crazy
this love we've found don't always come around,
so I'm telling you baby, I'm still around...

yeh oh ooh ooh ooh umm-umm um

I apologise for the way that I describe my mind to you,
ooh ooh ooh
with my love for you i would not fail to keep you true
its all I have to do, to do

Cause baby I care, and I hope you feel the same
Don't deny me...
Don't let me down, I'm telling you that your my baby
the world's gone crazy
this love we've found don't always come around,
so I'm telling you baby, I'm still around...

oooooh ooh ooh, yeh yeh yeh, cause you stole my
heart away,
yes you did

Cause baby I care, I hope you feel the same
Don't deny me...
Don't let me down, I'm telling you that your my baby
the world's gone crazy
this love we've found don't always come around,
so I'm telling you baby, I'm still around... (repeat
chorus)
