### "A Time To Fly"

Walking on a place I've never been before  
This time I realise how life moves on  
Nowadays a dream has strength enough  
to change our World, to change our roles

Is your life a real life or a prison of desires?  
Is your life a time to fly?  
In your dreams you'll reach all heights

Wasting all the time I've been denied in life  
Reality could be the perfect scene  
In this world I fly, I reign, I don't cry  
In the wings of dreams I've got no sins

There's no time to waste
