"One Blood"

In the faraway fires
Where the hills forever burn
At the feet of our heroes
We try hard to learn
But the lesson is lost there
In the smoke and the mud
That we are one flesh
One breath, one life
One blood

I stood by the river
That ran red with shame
I stood in the killing fields
Where death had no name
I stood with my brothers
And awaited flood
And we were one flesh
One breath, one life
One blood

Then I fell to the ground
Tasted ashes on my tongue
Thinking that only the dead
Are forever young

There was peace in the twilight
And for a moment or more
There was a world without danger
A world without war
And I would take all your suffering
It would do any good
Cause we are one flesh
One breath, one life
One blood
