Let's go walking on the water

Come all the way please

I wanna know

Should I stay or go?

No need to be scared

Let's jump into the day

I wanna know

I think I oughta go

Close your eyes and make believe

You can do whatever you please

I wanna know

I think I better go

Let's go walkin on water

Now you think I'm Satan's daughter

I wanna know

Please let me go!

Just too quick

Now I think I'm gonna be sick

I wanna know

Should I stay or go?

I'm trying for the future

It's funny that way

I wanna know

I wanna know!

I took a look into the hate

It made me feel very up to date

I wanna know

Should I stay or go?

Hold me tight, down on my knees

So I don't go burning 'cross the breeze

I wanna know

I wanna know!

I wanna know

Should I stay or go?

Burning 'cross the breeze

Burning 'cross the breeze

Blowing 'cross the breeze
