You gave your line

You fell in love

You feel the shadow

There's no more to borrow

There's no more to steal

And no more to feel

I know I know I know

I know I know I know

I know I know I know

You fell in line

You fell in jail

You feel in the shadow

To live in the light

To die in the night

I don't want to push it

I know I know I know

I know I know I know

I know I know I know
