Runaway train never going back
One way on a one-way track
Seems like it should be getting somewhere
Someone need to hear the

Hey hey hey hey hey hey hey
Hey hey hey hey hey hey hey

If no-one can help me now
I'm into there's no way out
This time I am really laid
My

Runaway train never coming back
Runaway train all the track
Runaway train rolling in my face
Runaway but it'll always be the same

Everybody shake your body
We don't have that body
Keep it doing..... original
I'm questionable but I am a professional
Gotta carry on the way the president
We are alone but I chill with the resident
With my particular style-style, particular

If no-one can help me now
I'm into there's no way out
If no-one can help me now
I'm into there's no way out

Runaway train never coming back
Runaway train all the track
Runaway train rolling in my face
Runaway but it'll always be the same
