Beautiful!

Looking at you here tonight,
This time I know I've got it right.
Watching as you make your way to me,
I can barely breathe.
You take my hand,
I can hardly stand
When you look at me,
Oh can anyone else see
What's happening between you and me?

Chorus:

It's a beautiful, beautiful, beautiful,
And the world I don't even need it,
My heart has already seen it.
And the way you make feel,
My whole world goes completely still,
Just one touch and just one kiss,
It doesn't get any better,
Love is beautiful!

Did you ever think it could ever be,
Anything like you and me,
The love is so deep, is everything
You thought it could be.
When you look in my eyes,
I see the smile,
I know it's all I need,
You're the missing piece to me.
Now I complete,
Baby you and me!

Chorus:

It's a beautiful, beautiful, beautiful,
And the world I don't even need it,
My heart has already seen it.
And the way you make feel,
My whole world goes completely still,
Just one touch and just one kiss,
It doesn't get any better,
Our love is beautiful!

So beautiful!

I've waited my whole life for this,
To feel your touch to know your kiss,
Right here in this moment with you,
All my dreams are coming true.
Coming true!

Chorus:

You're beautiful!
And the world I don't even need it,
My heart has already seen it.
And the way you make feel,
My whole world goes completely still,
With just one touch and just one kiss,
It doesn't get any better,
Our love is beautiful!
Is beautiful!
Our love is beautiful!

Thanks to Iulia
