"Ships on the Sea"

Visit "[Ships on the Sea](#)" on MotoLyrics.com

We walk these endless paths together hand in hand
The places only known to you and I
There we'd sit for hours and dream of times to come
Just let our cares and troubles pass us by
When we were together there was magic in the air
We knew the rules but we didn't really care

We were ships on the sea, we were young we were free
And however bad the storm we always knew
One day we'd live to see our dreams come true

Together we had everything we knew the world could
give
We tried to play the part as lovers should
Hard as we tried not to, sometimes we'd drift apart
But no matter how we tried we never could
We were young and innocent to share our lives we
dreamed
The world was for the taking at least that's how it
seemed
