La force des choses, la force de l'Âme  
La force du vent, la force des innocents.  
The force of things, the force of the soul  
The force of the winds, the force of the innocents.  
La force des mots, la force des riens  
La force de tes yeux, la force et Åa va mieux !  
The force of words, the force of nothing  
The force of your eyes, the force, it goes well!  
La force des forces, la force de l'ordre  
La force de ton nom, la force d'une chanson.  
The force of forces, the force of order  
The force of your name, the force of a song.  
La force du soleil, la force des marins  
La force des ouvriers, la force des patronniers.  
The force of the sun, the force of sailors  
The force of workers, company force.  
La force des tigres, la force des fous  
La force de toi, la force et Åa ira !  
The force of tigers, the force of fools  
The force of you, the force then it's OK!

De Kracht! De Kracht! De Kracht! De Kracht!

La force beaucoup, la force de la passion  
La force libre, la force en Åquilibre  
La force de l'hiver, la force de ta peau  
La force d'une main, la force et je vais bien !  
The force very much, the force of passion  
The free force, the hanging in a balance force  
The force of winter, the force of the skin  
The force of the hands, the force and I feel good!

Oh my weakness, oh my weakness!  
Oh my weakness, oh my weakness!  
Oh ma faiblesse, tu me blesses !  
Oh my weakness, oh my weakness!  
Oh ma faiblesse, tu me blesses !  
Oh my weakness, you hurts me...  
Oh ma faiblesse, tu me blesses !

The force of silence, the force of age

The force of time, the force of sentiments.  
La force du silence, la force de l'Ã¢ge  
La force du temps, la force des sentiments.  
The force of walls, the force of cries  
The force of your mouth, the force that laid me down!  
La force des murs, la force des cris  
La force de ta bouche, la force qui me couche !  
The force again, the force of your bones  
The political force, atomic force.  
La force encore, la force de tes os  
La force politique, la force atomique.  
The force of police, the force of blows  
The military force, the force of prayers.  
La force des corps, ta force des coups  
La force militaire, la force des priÃres.  
The force of titans, the force of fears  
The force of us, the "We Are Standing Up" force!  
La force des titans, la force des phobies  
La force de nous, la force on tient debout !

De Kracht! De Kracht! De Kracht! De Kracht!

The force of the stars, the force of the moment  
The force of love, the force I still believe it!  
The force of ideas, the force of emptiness  
The force to end it all, the force to keep us smiling.  
La force des Ãtoiles, la force de l'instant  
La force de l'amour, la force, j'y crois toujours !  
La force des idÃes, la force du nÃant  
La force d'en finir, la force d'en sourire

Oh ma faiblesse, oh my weakness, oh my weakness!  
Oh ma faiblesse, oh my weakness, oh my weakness!  
Oh ma faiblesse, tu me blesses !  
Oh ma faiblesse, oh ma faiblesse, tu me blesses !

De Kracht! De Kracht! De Kracht! De Kracht!

La force qui nous reste, la force (?)  
La force qui nous lie, la force infinie.  
The force that it remains, the force (?)  
The force that binds us, the infinite force.

De Kracht!
