Happiness and family is tearing me apart  
Down with me down with me I'm not going to fall  
All your rage on me  
Everything is ok  
Nothingness and no one's fist will ever change your  
mind  
Down with me down with me I'm not going to cry  
All your rage on me  
Everything's ok

Digging into me  
This life's not for me

These Bloody Hands

Crawling and screaming, this place does not love me  
Acceptance is useless and pointless for me  
All you have given is shit and contempt  
These bloody hands aren't at fault for your death
