When the sun rise, I rise too  
Penthouse high rise, I got a nice view  
Y'all down there, so I can't see you  
Funny ... I hope you got the right shoes  
You know I got them right kicks like it's kung fu  
I'm getting kinda hungry I look like...food  
Well here's today is lesson let me take you out of  
school  
Well here's today is lesson let me take you out of  
school  
You know we're bulletproof, looking like..  
In case these fucking haters wanna...  
Everybody want fame and they wanna be cool  
Well here's 2 bullets put your ass loose  
Motherfucker yeah, how is that for life coverage?  
I'm just trying to get the money...  
... my mama need a crib, no mortgage  
But y'all niggas stay the same like the Austin twin  
I'm trying to finish what I started  
These rappers tend to lies, mad ...from departed  
My team got money, my team go the hardest  
And we ain't come down till you ain't got no heart beat  
Swag on all day, fuck a ...  
Embedded in my dna, check my posture  
... rock with it, ... we got the fiends like it's narcotics  
Then we put it in your ear, only ... music ...  
God beside me so why should I fear  
Through the dark and the smoke I appear  
Last hope, last cloak, a light of shine passing the  
horizon  
I'm surfing the silver lining, combining all my power  
together I'm a giant  
Reaching out to the sky, I'm putting stars in alignment

I pray for them haters that be waiting for a downfall  
They feel they... in they life cause they stand tall  
For me boys need to do stand up, doing all they stand  
ups  
Stand down now ready for a stand out  
... that's brothers over bitches  
See ... paper, so there's brothers over biznes...

Piss off, no rules, we are the...  
... make catapults... falling into the ripples  
Compatible with the... break defenses  
Dancing with... roll mind till we die...  
I know the money always takes what it gives  
So I live my life ignorant so I can feel the bliss  
We have our own people and we do our own shit  
Don't trust you outside..  
Give it to the world, there's no witness in the cammo  
Haters wanna ... don't bother  
...So wassup yea, wassup, like I really give a fuck...  
Panoramic thoughts, see the colors that you missing  
... but who isn't y'all overthinking...  
My eyes, I see, ... legitimate, sick of it  
... Over your head, ... make it flow  
She say I missed, I think you miss...  
That's what the sentence is, fuck the negative, bitch.
