#### The Alphabeticians - Elephant

Look around on the ground  
Big round holes in sets of four by haystacks  
It's clear they've been here  
What's their business they are not indigenous.  
Everywhere in this town you see elephants  
Not just in the zoo, behind every fence.  
E - L - E - P - H - A - N - T  
that spells elephant.  
Infinity in a hose, for a nose  
that was heaven sent.  
Leathery and tan like my old man  
he's no sycophant.  
E - L - E - P - H - A - N - T  
that spells elephant.  
Try to dance like one now  
Swing your trunk back and forth  
Now you're a trunkophant.  
Hear them making the sound.  
Everywhere in this town you see elephants.  
Brown round mound on the ground,  
that's their excrement.  
E - L - E - P - H - A - N - T  
that spells elephant  
Infinity in a hose, for a nose  
that was heaven sent  
T - M - B - E  
Yeah you know me  
They might be elephants  
E - L - E - P - H - A - N - T  
that spells elephant
