The Alphabeticians - Twins

It's a baby in the mirror it's another baby  
Wait it's not a baby it's an echo it's a mic check  
Double helix double vision  
Do I have to decide?  
Two left feet, pair of shoes, A batteries  
Yes good egg no evil chicken batteries  
Are you kidding me did you really think you'd never  
need another pair of AA batteries?  
The twins are more than you asked for  
All that you've got and more than you deserve  
And if you ask me I'll say  
Every day is two's day  
Today must be a birthday and another birthday  
It's a movie, it's a double feature, it's a double double  
feature  
(that's a double feature about a double feature)  
It's the tandem bike you took to get yourself to the  
shows  
It's a two lane highway with a double decker bus with  
two rows of double seats on the inside.  
Have a twin pop popsicle sit back and enjoy the ride  
and the hum of the countryside.  
The twins are more than you asked for  
All that you've got and more than you deserve  
And if you ask me I'll say  
Every day is two's day  
Today must be a birthday and another birthday
