We are waiting for mom to get home.
Waiting for mom to get home.
We played with the football, we shot a few baskets,
shook my Magic 8 Ball a ten times and I asked it,
how long must we wait on our own?
We are waiting for mom to get home.

We are waiting for mom to get home.
Waiting for mom to get home.
We ate all our veggies, artichoke to zucchini,
Wore every hat including stovepipe and beanie
We took a long nap after playing all morning
Hung out with daddy until he got boring
In fact, at this moment he's on the couch snoring,
And we're waiting for mom to get home.
