"There's A Chain"

Visit "[There's A Chain](#)" on MotoLyrics.com

So I greet you now as the evening light is fading
From the window of delights, I stood there so long ago
With all the colours of the new and the rushing world
abounding
Wasting every breath and heartbeat, trying to wash
away the rain

Stars come crashing down, from the world these days
they shudder
Round the houses in the dawn, we stood and watched
them as they fall
But let us walk on through the storm with all the might
of life inside us
May your days be filled with gladness and your nights
with endless calm

May you grow up to be kind, may you grow up to be
gentle
May you go on to be loved and may you go on to be
wise
And may each sunrise keep you warm and may each
failure keep you learning
'Cause we'll never lose the living, all we'll ever lose is
time

There's a chain
It binds us all in lives of wonder
There's a chain, hold it closely as you go
Let this name be your family and your shelter
Take this chain all your days don't let go

There's a chain
A chain of life and time and passing
There's a chain, guard it closely as you go
Let this name be your family and your shelter
Take this chain all your days don't let go
