Walking in a dream
Far from any meaning
You're astonished I forgot your name

Trying to get things back
From my memory bank
Nothing helps me
Make a mental chain

Hey
Do I know you?
Hey
Do I want to?

You might be sweet
Or lying through your teeth
It's kind of freaky you know me so well

The time has come for me to excuse myself
You must have mistaken me for someone else
Next time we meet I may remember
You never can tell

Hey
Do I know you?
Hey
Do I want to?
