Lust or love
I don't know what's better

Place my mouth upon your wrist
My head you turn, my words you twist
Be it bark or bite, howl or hiss
My heart put up a fight against your mortal kiss
Ooh, you know what I mean
Get a little closer, feel it with me

Lust or love
I don't know what's better

She lead me on like the stumbling blind
My soul you free, my lips you bind
My blood red rose, my creeping vine
I need a little push, help me to decide
Ooh, you know what I mean
Get a little closer, say it like me

Lust or love
I don't know what's better

Lust or love
Do they come together

Bark or bite, howl or hiss
Blood red rose, mortal kiss
Give it all, I (know I) can't resist
Lust or love
