Snakes are leading my way
To the madhouse
My thoughts will fade away
In the madhouse

Switch my brain off
Washing it all with
Cold water

Less food every day
At the madhouse
The joy pills served to me are
Long gone

Eat my own flesh
Beating myself with my bones

Who made me a skeleton?
Who caused my death?
Pleasing teasing
Holding my own breath

Snakes are leading my way
To the graveyard
My bones will fade away
At the graveyard

Nothing left
Of my dance with death

Who made me a skeleton?
Who caused my death?
Pleasing teasing
Holding my own breath

Who made me a skeleton?
Who caused my death?
Cheering sneering
Dancing with myself
