Church of noise
You are not alone
Only skin and bones
It's our very own
Hear me - noise
Try to drown us out
Gotta learn to fight
Gotta learn to shout
Right now

Sell out or settle - that's the choices that we get
They tell us that it's useless to even fight back
It only takes five fingers to form a fist
It only takes one thought to rise up and resist
It only takes a sound to change the beaten path
It only takes love and courage to take it all back

Church of noise
Everything is ours
The blood and the scars
The love and the stars
Church of noise

Church of noise
You are not alone
Only skin and bones
It's our very own
Hear me - noise
Try to drown us out
Gotta learn to fight
Gotta learn to shout
Right now
