[Verse 1:]

Oh big daddy, your lips so fatty
Your jeans so ratty, they can see your tatty
Got a woman named Sady and a 20 somethin' baby
If you're lucky she's a lady, well maybe maybe maybe
You got a mansion called the garden of Eden
The girl on your side you're receiving what you're
needin'
You never do see your 20 somethin' lady
Cause maybe she's crazy, maybe maybe maybe

[Chorus:]

Remember when you said you would go far
Remember when you were a shooting star

[Verse 2:]

Well things are new when you're 22
Well they were different back in '62
It's right and wrong, black and white
Killing Viet Cong in the dark Jungle night
But now you're barely breathin' in the garden of Eden
You'd be dead if those pills you weren't eatin eatin
eatin
Never do see your 20 somethin' baby
Cause maybe she's crazy maybe maybe maybe

[Chorus:]

Remember when you said you would go far
Remember when you were a shooting star

[Bridge:]

Grey old man
With soft old hands
Remember when you shake and dance

You got a grey old man
With soft old hands
Remember when you shake and dance

[Verse 1:]

You never do see your 20 somethin' lady

[Chorus:]

Remember when you said you would go far
Remember when you were a shooting star

From way back then you were a people's king
From way back then my ears still ring

[Bridge: x2]

Grey old man
With soft old hands
Remember when you shake and dance

You got a grey old man
With soft old hands
Remember when you shake and dance

Ahhh, ahhh, ahhh yeah
Save me
20 somethin'
20 somethin' baby yeah
