i laid awake and had a dream the other day  
i got to the gates of heaven and they turned me away  
i'm guess in my past my life it must have been a fail  
so how could the ship of the clouds and turn around  
and sail

maybe i'm a different breed  
maybe i'm a missin me  
so maybe i'm a ..baby

you're havin the hell angel or demon  
you must be fresh out the penis  
'cause everything aint' what it seemin'  
friend of fiasco when shit gets insane when you been it  
so i play my position like i had a twin when a ..team and  
mama i need you to pray for me,  
daddy i need you to stay with me  
preacher i need you to touch me now  
bitches they keep buss me now  
p\*\*sy is gonna be the death of me  
and that gave me life ironically  
you never stopped it doctor robot..  
and now i'm livin my life sonically  
i tell you tell of knock and i  
you touch my f\*cking ..  
constantly touch continents  
continece can f\*ck with i  
fall down, bow down and pray they say i'll see ya  
i just do together like the way the ballerinas

then i f\*cking sail  
across the sky i'll sail  
my heart is not for sale  
i built the ship for sail  
maybe i'm a different freak  
maybe i'm a missin me  
so maybe i'm a ..baby

it seems as if i'm stuck and see  
about myself and rap at least ..  
no life for rest and cameras and flashes

no fashion please this rappers beat  
kiddin themselves like pregnancy..  
looking that they can deliver like me  
they trippin coming to a tailor  
..they gotta screw ..but they lose to  
so i'm leavin it, but when the time come i'ma hammer it  
'cause i'm too legit  
too cuick now make it stand up nigga sit down  
when it figure that out  
then it's .. every trigger on  
we run the shit  
this game is here for the takin'  
this life is arts and crafts  
nigga it's all about that you're making  
haters, well quickly tell me what you can't do  
what silly what f\*ck the difference is  
but i ain't you so i can't lose

yes, and then i f\*cking sail  
yes across the sky i sail  
ah no my heart is not for sale  
i built the ship for sail  
maybe i'm a different freak  
maybe i'm a missin me  
so maybe i'm a ..baby
