"Bad Day"

Verse

Let me tell you 'bout my day  
The things that nearly drove me insane  
I'm wilted, withered, bruised, and to blame  
But tonight I'm gonna put them to shame

Chorus 1

Sittin driver's seat, slammin' whiskey 'till its time  
To stumble through the door, bastard knew that she  
was mine  
Away, I stray  
Now I'm flyin' down the street, with busted up glass  
Didn't leave a witness, gotta get away fast  
Away... Bad day

Verse

I'm tryin' to wipe the blood out of my eyes  
Sometimes I don't know why I even try

I will say this they fought one hell of a fight  
I guess it's just too bad they had to die

Chorus 2

Sittin' driver's seat, laughing at their flashing lights  
I could run forever, but the tanks gettin' dry  
Away, I stray  
Stalled side of the street, with the busted up glass  
Cops are movin' in, they wanna but my ass  
Away... Bad day

Chant (2X)

Get back, I won't settle down  
The only way to heaven is a long road from hell  
Get back, I won't put it down  
The only way to heaven is a long road from hell
