"Where the Wind Blows"

Verse

Maybe I'll pack up my things and get the hell out of this
place

Maybe I'll jump in my truck and leave without a trace
Maybe I'll write a little note so no one would cry for me
And that's the way it should be

Chorus (2X)

Wherever the wind may blow
I know that I'll be welcome
Wherever the wind may blow

Verse

Then I'll head up to Winslow I heard the weather's nice
this time of year

Then head up to Wyoming, find myself a wife
Maybe settle down for a little while till I find out who she
really is
I'll hit the road, she can keep the kids

(Chorus) 2X

Verse

Makin my way to San Anton before I find my way back
home
Home... where I know I'll never be alone
But when the stress of life seems to get the upper hand
I close my eyes and let the breeze take me away

(Chorus) 2X
