i own an island, in the middle of the sea
let's someone pulling out for me
and there's waves pressing on the shore
feels like something before

one man one man last to every fear
one man one man last to every fear, fear

too hard to move
burning skin
marry all the swim
back and forward be in between
waters furs is..stream

one man, one man last to every fear
one man, one man last to every fear, fear

i could move away if i'd want you you wouldn't
stop me would you
i could move away if i'd want you you wouldn't
stop me would you

one man, one man last to every fear
one man, one man last to every fear, fear
fear, fear, fear, fear
fear, fear, fear, fear, fear
