Hey hey hey hey

Everywhere that I go I can see you
Your ghost won't die
And every breath that I take I can feel you
Here by my side
You haunt me every moment
You stole my life
I must break these chains that bind you here

I'll erase every single trace of you
I'll erase every single trace of you
Every trace of you

Hey hey hey hey

I have built you a funeral pyre
To say goodbye
Threw all your pictures in the fire
And then I cried
The flames grew higher and higher
They touched the sky
But even as you burn your ghost won't die

I'll erase every single trace of you
I'll erase every single trace of you
I'll forget your smile, forget your eyes
Forget your mouth, forget your lies
I'll erase every single trace of you
Every trace of you

Hey
Every trace of you (Hey)
Everywhere that I go I can see you (Hey)
And every breath that I take I can feel you (Hey)
And every tear that I cry reminds me (Hey)
Why

I'll erase every single trace of you
I'll erase every single trace of you
I'll forget your smile, forget your eyes

Forget your mouth, forget your lies
I'll erase every single trace of you
Every trace of you

Hey
Every trace of you
Hey
Every trace of you
