You know what I think cruel is?
Leaving your loved ones to die in some sterile hospital
room surrounded by strangers
Fuck that!
You want your grandmother dying like a little bird in
some hospital room?
Her translucent skin so thin you can see her last
heartbeat
work its way down her blue veins?

To detect the guilty
We must use our brain, using up-to-date scientific
techniques
We must use our brain
[2x]

To detect the guilty
We must use our brain, using up-to-date scientific
techniques
[2x]
We must use our brain [2x]

To detect the guilty
We must use our brain, using up-to-date scientific
techniques
We must use our brain

You know what I think cruel is?
Leaving your loved ones to die in some sterile hospital
room surrounded by strangers
Fuck that!
You want your grandmother dying like a little bird in
some hospital room?
Her translucent skin so thin you can see her last
heartbeat
work its way down her blue veins?
