Andre He has returned
Andre He has returned
After a ten year absence

In a hard rain, you were on the bridge
In a hard rain, you were on the bridge
My dad's already gone

I've known
I've known
I've known he'll never return
I've known he'll never return
Your boat saw pass the coastline
My dad surpassed death that day

Among trees , don't let your mom down
Among trees , don't let your mom down
The man in a photograph is laughing
The man in a photograph is laughing

Andre He has returned
Andre He has returned
After a ten year absence
After a ten year absence

I've known
I've known
I've known he'll never return
I've known he'll never return
Your boat saw pass the coastline
My dad surpassed death that day
