You've read it all in magazines or seen it on TV.
It takes two to tango - and a man to take the lead.
I'm my mama's boy, and nobody's but my own.
Still I'm shaking like a leaf every time I realize, I'm
really free to go.

Leave me now and I'll leave you tomorrow.
You say leave me now and I'll leave you tomorrow.

You can't be all that beautiful all of the time.
And I can't see the felony on your ugly side.
I know you're warming up to turn stone cold
'Cause you're trying to keep your cool.
You're always struggling to get somewhere soon.
But you can only go as far as the moon.

Leave me now and I'll leave you tomorrow.
I say leave me now and I'll leave you tomorrow.

I believe all the words that we say when we're drunk.
'Cause I know I didn't hear them all.
The truth don't get it right every time.
And sometimes, the big boys are small.

Leave me now, leave me tomorrow.
You can leave me now, leave me tomorrow.
'Cause I'll be back every time for as long as we're both
alive.
I'll be back every time for as long as we're both alive.
Leave me now, leave me tomorrow
(Leave me now, leave me tomorrow)
'Cause I'll be back every time for as long as we're both
alive.
