I ride on burning wings  
With a blazing demon  
We paint the night sky red  
With the blood of god's angels  
We piss on the tormented souls  
Of religious believers  
We rape the Virgin Mary  
To create an Anti-Christ

[Chorus]

This is the war of angels  
This is the war of demons  
This is the war of heaven  
This is the war of hell

Burning angels falling  
(Their) corpses littering the ground  
We crush the pearly gates  
Burn all heaven down  
We quench the sun  
And burn the moon  
Remove Jehova

And welcome Emptiness

[Chorus]

Walk through the valley of death  
Smell the stench of decay  
As the war is ending  
They will curse this day

On this day Death walks the earth  
Reaping all mandkind

As the sky burns we march forward  
Crushing, tormenting and raping the world  
Hunt down all survivors, living in fear  
We ride with death so no one is spared  
What once were will never be again  
(Because) the horseman of death  
Brings the world to an end!
