Yeah, close my eyes, it ain't a perfect picture in my  
mind  
The pain is right to bust it up, sketch the whole design  
So every line is like my final destination  
Except I'm every that ,  
So hard to keep them waiting I got some things to  
handle still  
My cat there , of banan pills, for real  
They told me life can be a , it's quoted, but like the  
keys on a piano fill  
It's loaded, hey cause nothing's gonna show a rain  
cloud only ,when you're below it  
So blow it away like trying to stand with no umbrellas  
here  
It's Californian girls like the sun up in the air  
Me, I'm just addicted to the glare  
,finding me, I'm blowing kisses in the air  
Yeah, until we stand in the beat, , stand in the beach

Imagine, imagine even like you just hit the lotto  
So you ain't even thinking of tomorrow, morrow  
Imagine, imagine when life gives you lemons mey  
You turn the lemons into lemonade  
Imagine, imagine, maybe I can change the world  
Imagine, imagine, life's a movie in the making

I want Californian sunset, ,on a time set,  
No pistol on my head, just one chick skin sun kiss, yeah  
The type that I could fall in love with, oh  
So we can get common a proper punishment  
For one night , walk in the city,  
homless stars will come to life with something  
Oh I've been , like Monalisa left the sit, hit the  
boulevard  
And you can keep the G6, we got a rocket ship  
Cruisin the strip, making wishes to the comment's ,  
But I like to live, but I can read you through the  
lines to see the evil in it  
If you don't believe with then redesign that you see is  
different  
If I could turn this , into the leather, I would

Then we could pretend, we could all imagine again

Imagine, imagine even like you just hit the lotto  
So you ain't even thinking of tomorrow, morrow  
Imagine, imagine when life gives you lemons mey  
You turn the lemons into lemonade  
Imagine, imagine, maybe I can change the world  
Imagine, imagine,

All you need in this life, is enough to make it right  
Just keep love right by your side, you have found it  
Here we go, obladi oblada, never wished upon a star  
Close your eyes and let it slide, and just imagine,  
imagine

Imagine, imagine even like you just hit the lotto  
So you ain't even thinking of tomorrow, morrow  
Imagine, imagine when life gives you lemons mey  
You turn the lemons into lemonade  
Imagine, imagine, maybe I can change the world  
Imagine, imagine, imagine  
Imagine if I changed the world

Imagine, imagine even like you just hit the lotto  
So you ain't even thinking of tomorrow, morrow  
Imagine, imagine when life gives you lemons mey  
You turn the lemons into lemonade  
Imagine, imagine, maybe I can change the world  
Imagine, imagine, if I changed the world.
