Crawling through my tunnel
When everything is dim, where does one go?
Crawl in to my tunnel
It's kinda shaky, may even crumble
Talking to a lame man
When you're maimed, where does one go?
Fall into my tunnel
Waking into the jungle
When everything is right, where does one go?
Walk into the jungle
Sometimes, I run, sometimes, I stumble
Talking to a saved man
When you're sane, where does one go?
Back into the jungle
Out, out, out of the tunnel
Back, back to the jungle
Out, out, out of the tunnel
Take me back to my jungle
Crawling through my tunnel
When everything is dim, where does one go?
Crawl in to my tunnel
Kinda shaky, may even crumble
Talking to a lame man
When you're maimed, where does one go?
Fall into my tunnel
Waking into the jungle
When everything is right, where does one go?
Walk into the jungle
Sometimes I run, sometimes I stumble
Talking to a saved man
When you're sane, where does one go?
Back into the jungle
Out, out, out of the tunnel
Back, back to the jungle
Out, out, out of the tunnel
Take me back to my jungle
