There were no weapons of mass destruction  
Or mobile biological weapons labs  
The agenda was to remove Saddam Hussein  
To reap the oil and establish a base

The Bush administration made a series of claims  
Prior the Iraqi war, abuse and misuse of intelligence  
There was no collusive relationship with Al Qaeda

Esoteric agenda  
Esoteric agenda

Open your eyes and see this world  
It's not what it seems free your soul  
From the ties that bind us all  
Time is upon us to wake up

The wars of the world are diversions  
For the desires of the powers  
The wars of the world are diversions  
For the desires of the powers

They declare war as a last option  
Even though they always actively block  
Every other viable policy  
In the same way the powers  
Make war the only option

Every other viable policy  
In the same way the powers  
Make war the only option
