Or am I just in love or am I feelin'
Nervous cause I haven't got a chance
The happiness I'm longing for is always fleeting
Oh you see, it happens all the time

I'll play a fool and you'll play nice
And I'll steal your Saturday night
And now it's getting dark and harder to say
You're gonna break my heart someday

Living on the street, I'm goin' nowhere
Lovin' is a bothersome affair
Maybe if I drown in this old river
Well maybe then my love my story change

I'll play a fool and you'll play nice
And I'll steal your Saturday night
And now it's getting late and harder to say
You're gonna break my heart someday

Or am I just in love or am I reelin'
Reelin' from the only one I liaised
The happiness I'm longing for is always fleeting
Oh you should've seen it from the start

I'll play a fool and you'll play nice
And I'll steal your Saturday night
And now it's getting late and harder to say
You're gonna, you're gonna break my heart someday

You're gonna break my heart someday
You're gonna break my heart
And I still think that's alright
You're gonna break my heart someday
