"Shaking all over"

When you move right up close to me
That's when I get shakes all over me
Quivers down my backbone
I got the shakes in my kneebone
I got the (?) in my (?) bone
Shakin' all over
When you move and say goodnight to me
That's when I get shakes all over me
When you move right up close to me
That's when I get shakes all over me
Quivers down my backbone
I got the shakes in my kneebone
I got the (?) in my (?) bone
Shakin' all over
When you move and say goodnight to me
That's when I get shakes all over me
