Oh for you to be
With your blood kin and me
On these stairs
Drinking our wine
By river river Rhine
The river river Rhine
The river river river Rhine

Oh for you to see
All the things that I've seen
From these stairs on my own time
By river river Rhine
The river river Rhine
The river river river Rhine

Dark and cold
The nights we stole
As we'd escape from
Walls of wood
And walls of stone
To recreate them

Oh for you to be
With your blood kin and me
On these stairs
Drinking our wine
By river river Rhine
The river river Rhine
The river river river Rhine

Dark and cold
The nights we stole
As we'd escape from
Walls of wood
And walls of stone
To recreate the sounds
On the night I loved you
