

The Last Days

"Children"

Visit "[Children](#)" on MotoLyrics.com

When I came it made you happy
As I grew it made you smile
But now I wonder what went wrong
Or was it like this all along
The way is out now
Nothing left here close to me
And I've had the bad time, such sad times
All the times you've made me see

Chorus:

Hold me for life not just today
Not just till rain clouds blow your way
All my future rests on you
We need you like air

Believe it - we believe you
What else is there to do
Singing, crying, laughing
All for the sake of you and you desire
Your empire
Would you really target me with your fire
Would you kill me, seduce me
Would you really being me here at all

Chorus
Chorus

When I came it made you happy
As I grew it made you smile
But now my mind has learned to hate you
The things you stand for sad and wrong
Your dying empire
Nothing left here close to me
So I'll hold the bad time, such sad times
All the times you made me see
