Drop out
Black, tarry substance makes my head feel this way
Brown, pungent odor everything will be okay
Sell me a pound to get me through another day
Cannabis
Devils weed
Fiorinal
It doesn't help
It doesn't help
Drop out
Cold universal solvent makes me want to fly
Hostile, physical impairment when I drive
Drink everything - drink everything in sight
Ethanol
Staggering
Vicodin
It doesn't help
It doesn't help
Drop out
Panic brain wave abnormalities
Fatigue withdrawal symptoms from depressant drugs
Burst blood vessels inside my brain
Alcohol
Stimulants
Methadone
It never helps
It never helps
Fly.
